

NSW Hire Car Association – Position Summary, 20 April 2016

NSW Point-to-Point Reform & Implications for the Hire Car Industry

The NSW Hire Car Association (HCA) **supports reform** in the transport industry which **embraces emerging technology** and improves **consumer choice**. The NSW HCA also **supports the removal of restrictive trade practices** which allow fair competition in the industry. It is imperative within this changing landscape that the NSW Government acknowledges that the NSW Hire Car industry has a long standing history of contributing to the NSW economy, providing key differentiated services for Travel & Tourism industry events and serving a broad customer base which has special requirements and who equally deserve to have suitable choices for point-to-point transport services.
